**172 Days To RC Audit**

**Be sure to check weigh all bags off of the calciners and fill out the log sheet downstairs by the scale and Attach "Packaged By" label with your initials.**

## **#1 MED / Clean for Si-1624:**

**Finished. Cleaning for SI-1624 continues – Needs done – Auger**

**Midnight shift: Pulled auger and noticed barrel liner has crack and auger worn.**

**Advised Kristen Kaput via email...need engineering to inspect. Other two available augers in stores are 65-67%.**

**Day shift:**

**Afternoon shift:**

## **#1 RC / Clean for Si 1624:**

**Cleaning for SI 1624. All flush that is run through the calciner needs to be put in a lined super sack. Still need to flush calciner**

**Midnight Shift: Waiting for F1 or Trimer to get suction to Calciner in order to engage syntron to feed flush...Kristen Kaput advised**

**Day shift:**

**Afternoon shift:**

**Exhaust to Trimer when feeding**

## **#2 MED line / Clean for Cu 0560:**

**Running Cu-0560 trial on day shift and start of afternoons.**

**Midnight shift: Auger reinstalled and area cleaned. Will resume on day shift**

**Day Shift:**

**Afternoon Shift:**

## **#2 RC/ Cu 0560:**

**Calciner lit and feeding material**

**Midnight shift: Feeding the first bag / batch material and drumming off as copper reclaim per Wednesday instructions. Then feeding next two bags and drumming them as Lot 1 drums 1, 2, 3, etc...**

**Day Shift:**

**Afternoon Shift:**

**Exhaust to F1**

### **#3 MED/ D-0703:**

Running D-0703,

Midnight shift: Gear box being ordered. On hold for now.

Day Shift:

Afternoon Shift:

### **#3 RC / D 1780 NAQ :**

Will need to rescreen bags 2,13,16,17, 18 at a feed rate of 400# per hour. And, bag 19!!

Midnight shift: Found bag #19 from lot 10 and per Wednesday notes, feeding that bag for rescreen. When done, bringing calciner down in temps to reverse and hold until verification from Bodmann that all material finished

Day shift:

Afternoon Shift:

**Exhaust to CTO- Watch suction**

### **#4 RC / D-0222 KLP:**

Tri-mer sump line hangers repaired. Wait for Trimer nozzles to be repaired

Midnight shift: Trimer still down (Lucas working on flow meters. Parts being ordered)

Day Shift:

Afternoon Shift:

**Exhaust to Trimer**

### **#5 RC / Cu 0539:**

On hold for burner tuning Thursday morning. **Do not close the slide gate all the way that is on the deck that goes to the dust collector.**

Midnight Shift: Burner tuning to be done Thursday morning.

Day shift:

Afternoon shift:

**Exhaust to 5 DC**

### **#6 RC & Dryer / D-0257**

D 0257 done. Do not slam HC-11 elevator inner cage door!

Midnight shift: No activity. Sly Scrubber to be pumped out Thursday for precious metals reclaim. 5 totes have been staged next to Sly.

Day Shift:

Afternoon shift:

**Exhaust to Sly Scrubber**

### **6 Tank /D-5253 empty**

**Empty. Drain looked at by Schirmer and Lucas- not fixed yet**

**Acid washed 1-1-15 – MT 1-2-15**

**Midnight Shift: NA**

**Day Shift: NA**

**Afternoon shift: NA**

### **New Pfaudler / D-0222:**

**Waiting for national Dryer repairs**

**Lucas looked at 7 tank actuated outlet valve and advised that a new actuator was on order.**

**See Revised batch sheets in the MOD.**

**Midnight Shift: Holding for National Dryer pressure drop issues. New batch sheets in MOD**

**Day Shift:**

**Afternoon Shift:**

### **7 Tank KLP solution:**

**Tank 7 was finished over the weekend.**

**Midnight Shift: Hold**

**Day Shift:**

**Afternoon shift:**

### **Old Pfaudler / D-0257:**

**Finished. Will need clean up instructions. Lid was removed**

**Midnight Shift: Hold**

**Day Shift: Hold.**

**Afternoon shift: hold**

### **National Dryer: D-0222**

**Waiting for maintenance to repair**

**Midnight Shift: National dryer dust collector out of range again. To be looked at by maintenance Thursday.**

**Day shift:**

**Afternoon Shift:**

### **PK Blender 3917 Pill Mix:**

**Running pill mix**

**Midnight Shift: Batch made, then using manpower to finish repacks and move out SI 1624 Non Haz bags on 1<sup>st</sup> and 2<sup>nd</sup> floor.**

**Day shift:**

**Afternoon shift:**

**Abbe Blender / 5206 Done**

**Done for a while. Area Cleaned**

**Afternoon shift: NA**

**Midnight shift: NA**

**Day shift: NA**

**Tower 3 / Cu 0860:**

**Hold**

**Midnight Shift: Hold**

**Day shift:**

**Afternoon shift:**

**Tower 6 / Cu 0860:**

**Hold**

**Midnight Shift: Hold**

**Day shift:**

**Afternoon shift:**

**North Screener / Cu-0860:**

**Continue**

**Midnight shift: Continue, finish last couple of totes. Work order was written for alcohol pump but midnight operator advised it was working OK. Monitor on day shift and let maintenance know if still needed.**

**Day shift:**

**Afternoon shift:**

**South Screener / Cu-0860:**

**Continue**

**Midnight shift: Continue, finish last couple of totes. Work order was written for alcohol pump but midnight operator advised it was working OK. Monitor on day shift and let maintenance know if still needed.**

**Day shift:**

**Afternoon Shift:**

**#2662 (west) Pill Machine / Al-3917 T 3/16”:**

**Trying to keep running**

**Midnight shift: Continue**

**Day Shift:**

**Afternoon shift:**

**#2664 (east) Pill Machine / AI-3917 T 3/16”:**

Continue to run.

Midnight shift: Bad clutch (WOW)

Day Shift:

Afternoon shift:

**TK #2 / V 2046/V 2010:**

Waiting for the go ahead approval for a pallet type set up(see Grodecki e-mail).

Midnight shift: Still holding, working on setting up station. Looking for DC hose.

Need Grodecki to confirm if current loading station with pallets to support pan is OK to use, and if anything else needed before starting.

Day Shift:

Afternoon shift:

**TK #4 / Cu 2508:**

Continue. Putting full size sagger on the bottom and the half sagger on top.

Midnight shift: Continue

Day Shift:

Afternoon shift:

**Harrop Kiln / AI 3920:**

Ok to start. Will need to set up pallets for now instead of using the table. Material is by the Abbe blender.

Midnight shift: Continue

Day Shift:

Afternoon shift:

**Building 27 Belt Filter / 6081:**

There are more 116 bags in bldg now. Need to put 500 gal in tank 2 and feed to the belt.

Midnight shift: No activity

Day shift:

Afternoon Shift:

Other stuff:

\*There is one drum of E 321 T5/16 x ¼ (55400304) that will also need to be repacked. When the Selexorb repacking is completed, re-clean the repack hopper for this drum. Needs done sometime Wednesday. UPDATE: finishing Selexorb late midnight shift Thursday morning and should have repack hopper cleaned and ready by day shift. If not done by end midnight shift, work on E321 drum first thing day shift Thursday and get new drum to warehouse (shipping today!).

Priorities 1 through 11 are basically all the same priority, should be considered urgent and will require call outs for maint issues and/or processing issues.
